

EQUS™ OPEN TRAINING

Oct 17—19, 2017 | Melbourne, Australia

Learn the skills and techniques for managing data workflows with EarthSoft's Environmental Quality Information System (EQUS) in this EQUS Open Training. Gain experience working with environmental analytic data, specifically focusing on workflows for importing and reporting data with EQUS.

The Training will center around reporting with EQUS Professional, EQUS Enterprise and importing data with the EQUS Data Processor (EDP), and well as sample planning with the EQUS Sample Planning Module (SPM) and field data collection with EDGE. Discussion will also include critical data management principles and practices such as:

- Developing standard operating procedures for data management and collection best practices
- Storing coordinates and other data in EQUS for maps and graphics
- Building and maintaining Groups and Action Levels in EQUS

This Training includes:

- Two (2) hours of online introductory content, October 2, 2017
- Three (3) days of in-person instruction, October 17-19, 2017
- Two (2) hours of online follow-up, November 3, 2017

This EarthSoft Training is recommended as an introductory Training for beginner-level or as refresher Training for intermediate-level EQUS end users.
