

## Online EQUIS Advanced User Workshops (AUW)

October 17—November 16, 2017 | GoToTraining

Join EarthSoft's Development team for several in-depth, interactive, online EQUIS Advanced User Workshops (AUWs). Content is determined primarily by topics of interest expressed by participants. Submit specific questions or issues pertaining to the advanced use and/or customization of EQUIS.

Gain the expertise to customize EQUIS for new projects. Hands-on activities will result in a better knowledge and understanding of EQUIS. Be better prepared to support the specific needs of your EQUIS projects and users following successful completion of one or more AUWs.

**These workshops are appropriate for EQUIS administrators, developers and power users with more than 6 months equivalent full time experience with EQUIS.**

### Location

Participate in these Advanced User Workshops via GoToTraining. The connection information will be provided upon registration.

### [Online AUW Catalog](#)

### Cost and Registration

Each six -hour workshop is \$500 USD per person and is made up of two (2) three-hour instructional sessions and a pre-session to review requirements.

See the next page or the catalog for the full workshop schedule.

## Online EQUIS Advanced User Workshop Schedule

Workshop Title and Registration Link	Pre-Session (12-1pm ET)	Session 1 (12-3pm ET)	Session 2 (12-3pm ET)
<a href="#">Customize EQUIS Reports</a>	Oct 6	Oct 17	Oct 19
<a href="#">EQUIS Schema</a>	Oct 13	Oct 24	Oct 26
<a href="#">Develop EDD Formats</a>	Oct 20	Oct 31	Nov 2
<a href="#">EQUIS Enterprise Customizations</a>	Oct 27	Nov 7	Nov 9
<a href="#">EDGE Form Development</a>	Nov 3	Nov 14	Nov 16

### Cost and Registration

Each workshop includes a one-hour pre-session and two three-hour instructional sessions. To register for an individual workshop, single-click on the course name above, or visit the Online EQUIS Advanced User Workshop [catalog](#).

All workshops are **\$500 US** per person. Upon registration, you will be invoiced for the selected workshops. For assistance with registration, invoicing, or other questions, contact [training@earthsoft.com](mailto:training@earthsoft.com).

### Workshop Requirements

Attendees will be expected to have a working version of EQUIS 6 installed on their computer prior to the workshop.

A development tool such as Visual Studio as well as Syncfusion or Infragistics may also be required for specific courses and will be utilized during this course. A list of qualified versions will be distributed prior to the class. Pre-sessions will be held for each workshop to review the necessary software requirements.
