

Enterprise - Product Levels

EQUIS Enterprise product levels combine Enterprise automation and workflows with specific EQUS Schemas. EQUS Enterprise provides the following:

- EQUS Schemas are licensed through Enterprise for all EQUS products that require extensions to the base level EQUS Schema.
- Workflow automation through user-defined dashboard and widget views in a web browser.
- Data loading, data quality checks, reporting, and visualization automated in Enterprise.
- Improved decision support using dashboards and a library of widgets and query-building tools to view data via charts, graphs, maps, tables, and other visualization options.

EQUS REST API License

Includes ArcEQUS and Power BI Connector; requires EQUS Enterprise.

Professional - Product Libraries

EQUIS Professional is bundled with specialized applications according to specific functional libraries. Requires EQUS Enterprise license.
