EQuIS™

Enterprise and Schemas

EQuIS Enterprise product levels (Basic and Premium) combine Enterprise automation and workflows with specific EQuIS Schemas. EQuIS Enterprise provides advanced workflow automation for efficient and reliable data loading, data quality checks, reporting, and graphics/visualization through web browsers.

Make data-driven decisions with user-defined dashboards comprised of a library of widgets and query-building tools to view data via charts, graphs, maps, tables, and other visualization options. Visit our Dashboard Gallery.

EQuIS Geotech

EQuIS Geotech extends the EQuIS software suite for geotechnical data management workflows. EQuIS Geotech licensing includes a separate Schema, format files, numerous standard reports and templates, widgets, and configured dashboards. Additional EQuIS software requirements will apply.

EQuIS REST API License

Includes ArcEQuIS and Power BI Connector; requires EQuIS Enterprise.
